Profile

A passionate and results-driven Frontend Developer with a strong command of HTML, CSS, and JavaScript. Highly proficient in modern frameworks and libraries, including React, Next.js, and Angular, with hands-on experience building scalable and performant web applications.Always eager to adopt new technologies and best practices to stay ahead of the curve in the ever-evolving web development

Professional Experience

12/2024 – present   **Clapcle Infotech Private Limited,** *Frontend Developer*   Surat, India

- Developed and maintained responsive, modular, and scalable user interfaces for multiple ERP modules including Sales, HR, Finance, and Inventory using React.js, Redux etc.
- Implemented dynamic, JSON-driven form generation, allowing users to customize and configure forms based on specific business requirements.
- Designed role-based dashboards to provide tailored data views and analytics for different user roles such as Admin, Manager, and Employee.
- Configured Axios interceptors for handling API requests globally — including token refresh, error handling, and unauthorized request redirection.
- Developed responsive and interactive UI for a share market platform using React.js, ensuring a seamless user experience.
- Collaborated with backend teams for API integration and ensured secure authentication.

01/2023 – 09/2024   **1RIVET,** *Frontend Developer (Employment)*   valsad, India

- Established and enforced coding standards to ensure consistency and maintainability across the codebase.
- Integrated MVP (Model, View, Presenter) pattern to streamline Angular component management and incorporate RESTful APIs ensuring seamless data communication between frontend and backend systems.
- Explored React Js from the Udemy course, completed projects like a Todo app and an employee management app etc.
- Explored Next Js from the Udemy course, completed projects like a Netflix Clone , crud app etc.
- Took the internal session in the Front-end community regarding the folders-structure in the React Js

08/2022 – 12/2022   **1RIVET,** *Frontend Developer (Internship)*   valsad, India

- Polished my skills of HTML, CSS, SCSS, JavaScript and Angular during this internship and learned many new things.
- Learned version controlling (Git) and its best practices (Git flow) for the organization.
- Ensured cross browser compatibility.
- Collaborate closely with cross-functional teams, including designers and developers, to bring projects to fruition.

03/2022 – 06/2022	**Concept Education System,** *Web Developer*	Navsari, India

- Learn HTML, CSS and Javascript
- Create educational activity ,which helps student to learn effectively.

Education

08/2015 – 05/2019	**Bachelor of Engineering,** *GTU*	Modasa, India

Projects

Personal Finance Tracker

The Personal Finance Tracker is a powerful and intuitive web app designed to empower individuals in managing their finances. It allows users to track their income, expenses, and savings, providing insights into their financial habits. The app includes features like budgeting tools, expense categorization, financial goal setting, and reporting, helping users make informed decisions to achieve their financial goals. With an easy-to-use interface, it enables users to monitor their financial health, set budgets, and stay on track with their financial plans

MT5

This application is designed to streamline share market trading by facilitating the creation of master brokers by an admin. The master brokers can then onboard clients, allowing them to engage in buying and selling stocks within the share market. The system ensures efficient management of brokers and clients, providing a seamless platform for clients to monitor their investments and execute trades in real-time.

Clapcle ERP System

A comprehensive enterprise resource planning solution designed to streamline and automate business operations across multiple departments. The system integrates modules for inventory management, sales, finance, HR, and reporting, providing real-time insights and improving overall efficiency and decision-making.
